

## 2017 Water Wise Gardening Classes

Classes are held at the District office and water-wise garden. Classes are **FREE** to Left Hand Water District customers. Space is limited, so reservations are required. Please make your reservations by visiting our website at [www.lefthandwater.org](http://www.lefthandwater.org) or [bwheeler@lefthandwater.org](mailto:bwheeler@lefthandwater.org)

Please include your full name and address and # of guests attending.

Customers attending Classes will have the opportunity to take home a "Garden In A Box" as a FREE Door Prize!!

## Let's Learn about Plant Select Plants and Get Outside to Explore our Gardens:

By: Mike Woods - J&S Landscape

**Saturday, June 3rd - 10:00 a.m. - 12:00 p.m.**

Coming from a small Iowa town, Mike had the opportunity to grow up around gardens and farms. Since finishing a horticulture degree, he has continued to work and study gardens and how to skillfully create them for his many landscape projects. Mike has made Colorado his home since 1985 and incorporated gardening ideas and inspiration from our region's most skilled garden experts. He takes pride in developing useful and interactive gardens that burst with color and have that special Colorado feeling. His passion is gardening at his home with his wife, chasing his dogs down local trails, and learning more about the countless options he can use for your home's landscape.

## Biotic and Abiotic Stressors in Our Local Trees:

By: Jamin Mayer - Parker Tree Service

**Saturday, June 10th - 10:00 a.m. - 12:00 p.m.**

There are pathogens, insects, rodents, and dare I say; humans, which can have a negative effect on trees. These stressors would be considered biotic stressors. Abiotic stressors are environmental stressors; extreme temperature fluctuations, soil chemistry, soil structure, soil percolation, mechanical injury, wind/snow loads, drought, etc... Several stressors exposed to a tree will lead to the outright death of a tree. Learn about the common stressors which affect our local trees. Get a chance to recognize stress, decline, and death in a tree. Educate yourself and educate others with the content from this class.

## **STAY GREEN, SAVE BLUE WITH A FREE SPRINKLER INSPECTION!**

### **GRASS GUZZLING ALL YOUR WATER?**

Just like a car, your sprinklers need an occasional check-up to make sure they're running as efficiently as possible and aren't putting a big dent in your water bill. Sign up for a **FREE** sprinkler inspection to save thousands of gallons of water every year!

### Benefits Include:

- ◆ Save money on your water bill!
- ◆ Gain practical, easy, do-it-yourself sprinkler maintenance skills.
- ◆ Do your part to conserve Colorado's water!

**Inspections are limited and spaces will fill up fast!**
