

2018 Water Wise Gardening Classes

Classes are held at the District office and water-wise garden. Classes are **FREE** to Left Hand Water District customers. Space is limited, so reservations are required. Please make your reservations by visiting our website at www.lefthandwater.org or bwheeler@lefthandwater.org

Please include your full name and address and # of guests attending.

Customers attending Classes will have the opportunity to take home a Rachio Smart Sprinkler Controller or a "Garden In A Box" as a FREE Door Prize!!

Become a Master Waterer!

By: Emil Motycka – Rachio

Saturday, May 19th - 10:00 a.m. - 12:00 p.m.

Learn how to install and use a smart sprinkler controller. Make your lawn the smartest on the block and never water in the rain again. This class will help attendees maximize the benefits of smart watering technology to grow drought tolerant landscapes. Topics covered: relationships between soil, water, and plants; advanced hydraulics; irrigation equipment. Emil grew up in Longmont on a hobby farm—just a few modest acres of land, nothing too fancy. He loved getting his hands dirty and started mowing lawns in grade school in lieu of an allowance. By the time Emil graduated college, the once extracurricular activity had expanded from a few neighborhood customers to a business with a fleet of trucks and thousands of clients. Seeing firsthand how few people understood how to water their lawns, Emil joined Rachio as an early employee to help turn his expertise into easy-to-use software for homeowners and landscapers alike. Since 2014, Rachio has helped homeowners save more than 22 billion gallons of water and counting.

Let's Learn about Plant Select Plants and Get Outside to Explore our Gardens:

By: Mike Woods - J&S Landscape

Saturday, June 9th - 10:00 a.m. - 12:00 p.m.

Coming from a small Iowa town, Mike had the opportunity to grow up around gardens and farms. Since finishing a horticulture degree, he has continued to work and study gardens and how to skillfully create them for his many landscape projects. Mike has made Colorado his home since 1985 and incorporated gardening ideas and inspiration from our region's most skilled garden experts. He takes pride in developing useful and interactive gardens that burst with color and have that special Colorado feeling. This class will be held outside in our gardens.
