Landscape Consultations!! All customers

attending this class will have the opportunity to win this AWESOME Door Prize!

## **Less Lawn, More Saving!**

*By: Zac Lance – Resource Central*

**Saturday, June 13<sup>th</sup> - 10:00 a.m. - 12:00 p.m.**

Do you have too much lawn? Are you tired of wasting water on that patch of grass that just won't grow? Do you want to attract more pollinators to your yard? If you answered "yes", be sure to attend the Less Lawn, More Saving class to learn about practical solutions for removing part of your lawn and replacing it with water wise and pollinator-friendly alternatives. Topics will range from selecting which section of grass to remove to physical lawn removal techniques and the basics of sprinkler zone conversion to drip. Zak helps homeowners across the Front Range save water by redefining what a sustainable yard looks like. He leads Resource Central's various Lawn Removal initiatives and is energized by creating programs that help people reduce their impact.
